

SAN DIEGO COUNTY Phenology Project Workshop

Are you interested in helping scientists monitor the local impact of global climate change?

The Reuben H. Fleet Science Center is joining forces with the San Diego Natural History Museum to collect data on the leafing and flowering of local plant species. These data will be shared with Project BudBurst, a nationwide research project that explores the effects of climate change on the plant lifecycle. We are looking for volunteers who are interested in making regular observations of the plant species in their neighborhoods. Learn more at one of the following introductory workshops.

When:

Saturday February 13 9:00 – 11:00 a.m.
Tuesday February 23 9:00 – 11:00 a.m.
Saturday March 6 9:00 – 11:00 a.m.

Where:

The Reuben H. Fleet Science Center

You may register by phone to, (619) 238-1233 ext. 847 or by email to, mfrench@rhfleet.org (please include your name, phone number, e-mail, and the number in your party).
